STUDENT TESTIMONIALS

"Everyone was kind, attentive and professional."

"The physician was very professional and answered all of my questions thoroughly. She was respectful of my time and inexperience with the topic."

"The environment is friendly, safe, and non-judgmental."

"The provider I saw was very friendly, professional, and really had me leaving there feeling like I was in good hands. You guys are Rockstars!"

The University Health Center exists to advance the wellbeing of students and our community by providing the integration of health & well-being through primary, specialty, mental health care; and wellness services & outreach.
